
Vision-Mission Statement

We visualise ourselves harnessing robust long-term growth of safety industry in emerging markets for transforming us into a world-class safety solutions provider offering a self-sustainable growth story to all its' stakeholders.

Quality Statement

To us quality is not a stand-alone concept but a multi-dimensional approach to solution delivery comprising a value proposition at centre with an optimum blend of peripherals like material quality, environmental responsibility, ease-of-use, aesthetics, and above all, necessary recognitions / certifications.

Company Profile

SPECIALITY SAFETY ENGINEERS was established in the year 2008 by a team of three people drawn from engineering, commercial and general management backgrounds with each one having a common passion of creating an organization providing specialized / customised safety products and project implementation services covering the entire gamut of products and services in the spheres of personal protection, industrial safety and public utility services. As a customer centric organization, we always strive to offer highest quality products adequately customised to serve the specific technical and commercial requirements within given budgetary constraints of our esteemed clientele. Our goal is not just to maintain a healthy business relationship with our customers but also to support them with a strong distribution and service network of channel partners and safety consultants, who can also assist in taking us forward as an organization and keeping us at the forefront of the latest in Safety.
